40W Ultra-Slim LED Panel Light 295 x 1195mm

A HIGH POWERED LIGHTING SOLUTION FOR COMMERCIAL PREMISES.

This stylish compact 40W LED light panel is a low energy yet highly efficient lighting solution ideal for use in commercial premises such as offices, factories, retail environments or supermarkets.

It uses standard mains input voltage and is supplied with a 12v driver. Consuming just 40 watts of energy and an efficiency of 93Lm/W, these units provide 3700 lumens of bright, evenly distributed light that will help reduce your carbon footprint. This 40W LED panel is rated IP51 and is available in either Natural White or Cool White. At 295x1195mm, the lightweight LED panel is designed for simple installation into suspended ceilings and is a direct replacement for a standard tube light panel. The panels can also be mounted or suspended with the additional accessories and are dimmable when installed with a Triac dimmable driver.

Application

Offices, Hospitals,
Care Homes, Factories,
Supermarkets,
Task Lighting,
Store Displays,
Commercial Lighting.

| Code | Dimensions | Cut-out | Lumens | Power | Equiv. | Beam | Colour | Kelvin | Dimmable | IP Rating | Input |
