

The Curva Series

...Taking you forward

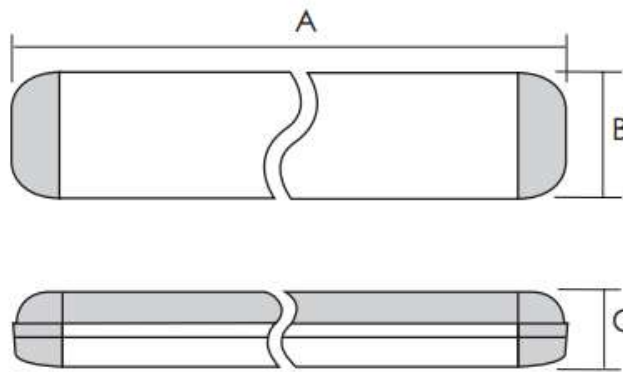

A stylish slimline linear luminaire.

The energy efficiency is ideal for a host of commercial, office, hospital and educational applications.

The slimline, curved design aims to meet practical and aesthetic demands of any installation. A steel fabricated spine construction, polycarbonate end caps and opal side extrusions.

Helpful installation options, such as surface mounting and suspension kits. Offering two light output options – a full opal polycarbonate diffuser or a zero iridescence anodised aluminium louvre.

- Contemporary design.
- Excellent light output.
- Ceiling or suspension mounting kits.
- Providing both upward and downward 360° light illumination.
- Simple installation and maintenance – No tools required to replace the lamp, due to the invisible front fix diffuser and louvre assembly.
- High Frequency emergency, PIR sensor and digital dimmable options available.
- Corridor function.
- LED versions available (opal diffuser only).
- Provided in 1200mm and 1500mm lengths.
